

# Snow Buds

## Block 2 - It's Snowing Popcorn Strand Tutorial

**\*Note:** for this tutorial, the center fabric color and thread were chosen for higher contrast, not for accuracy to the pattern instructions.

1. Cut out approximately 2" circles of 1384-33 Cream fabric and approximately 1" circles of 1895-432 Dijon fabric.

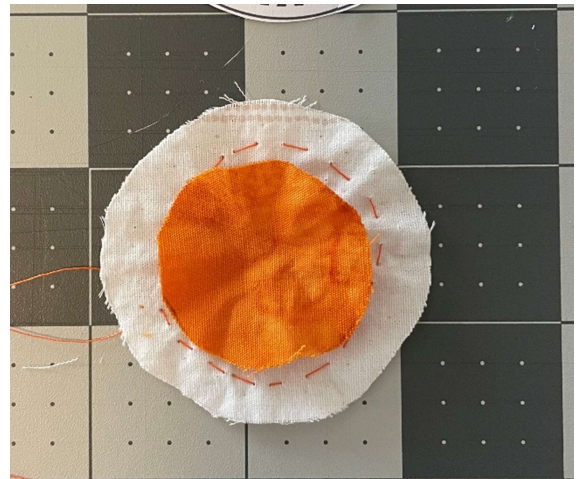

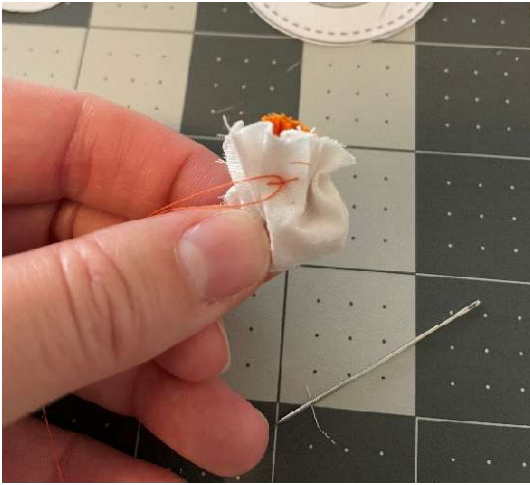

2. Taking a needle and white thread, stitch around the outside perimeter of the white circle with a loose running stitch.

**\*Note:** I stitched about 1/4" in from the edge

3. Center the yellow fabric on the white fabric.

**\*Note:** I flipped the white circle over, so the tails of the thread are now on the bottom and will be on the outside of the popcorn.

4. Pull the thread tight bunching the white fabric around the yellow center and tie off with a knot. Cut off the thread tails.

**\*Note:** I had to pull the orange fabric up a little so it would show in the center.
